Introducing the newest grocery list app that will help make your life stress free. This app was designed to reduce your time navigating and finding grocery stores. As we all know, no grocery store is laid out the same, so we reorganize your list to the store layout based on the store. We also strive to make your grocery list creation faster with features including scan-ability, which will then convert to text and re-categorize.

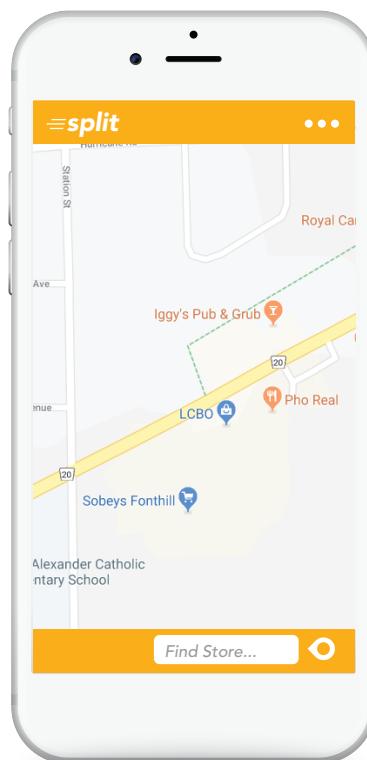

YOUR LIST

- Favourite items
- Categorize items
- Mark off items

SETTINGS

- Share list
- Add multiple lists
- Personalize app

LOCATION

- Find stores near you
- Categorize departments/aisles to store layout

LIST GENERATOR

- Scan hand written lists
- Voice dictation
